

MAMMOGRAM – SCREENING OR DIAGNOSTIC

Patient: _____ Appointment Date/Time: _____

Location: 1230 East Main Street, Mankato, MN 56001

Please enter through door #50 and check in at the Diagnostic Imaging Department – Lower Level.

If you are unable to keep your appointment or have questions, please call (507) 389-8570.

Please arrive on time to avoid rescheduling. Young children that require supervision should not accompany you to your appointment.

Cost Assistance: If you have concerns about the cost of a mammogram, a Minnesota Department of Health program called SAGE could help. Contact SAGE directly at 1-888-643-2584 or online at www.MNSAGE.com**Results:** You will receive a letter or email with results, as required by the Mammography Quality Standards Act.**Screening Mammogram (3D Tomosynthesis)**

- **How to Schedule:** Call Diagnostic Imaging at (507) 389-8570 or online at: <https://www.mankatoclinic.com/mammography/>
- Routine breast x-ray without any symptoms or concerns.
- Proven to detect more breast cancers than 2D for all breast densities.
- Approximately 10% of patients may be called back for additional images or evaluation. If needed, a follow-up diagnostic appointment will be scheduled separately.
- If you have a history of breast cancer and have no symptoms (unilateral or bilateral), your exam will be coded as a screening exam.
- **Insurance & Billing:** Covered by most insurances. Please call the number on the back of your insurance card before your appointment to find out what's covered for this exam. **This will be billed as a PREVENTATIVE / SCREENING exam with CPT codes 77063 & 77067. If insurance won't cover 3D, then verify CPT code 77067 for 2D exam. Inform your technologist prior to any imaging if 2D exam is needed.**

Diagnostic Mammogram

- **How to Schedule:** Call the Breast Health nurses at (507) 389-8781
- A specialized breast x-ray recommended by the radiologist to follow up on a spot or change from a previous exam or other concerns such as lump, nipple retraction, discharge, skin changes, redness, or pain.
- A breast ultrasound may also be scheduled with the diagnostic mammogram.
- Radiologist will review all imaging immediately following your exam.
- You will receive your results at the end of your breast imaging appointment, so please allow for 60-90 minutes.
- **Insurance & Billing:** Please call the number on the back of your insurance card before your appointment to find out what's covered for this exam. **This will be billed as a DIAGNOSTIC exam with CPT codes 77066 & G2079 (Bilateral) or 77065 & G0279 (Unilateral).**
