Chemical Dependency Services

To get help for alcohol and drug use problems:

Get a comprehensive assessment to determine what services are best for you. This is an evaluation performed by an alcohol and drug counselor that determines the kind of treatment needed by someone with a substance use disorder

Where to get a comprehensive assessment:

To find providers in your area, consult one of the following links.

[FastTracker](#): This website helps you find substance use disorder services near you. It also provides a list of tribal and out-of-state providers.

[DHS Licensing Information Look-up](#): This is a database of all Minnesota Department of Human Services-licensed programs. Select the appropriate substance use disorder license type to find providers. The database also includes licensing review information.

[Minnesota Health Care Programs \(MHCP\) Provider Directory](#): This directory lists health care providers that serve MHCP members (such as Medical Assistance and MinnesotaCare).

How to pay for a comprehensive assessment:

If you don't have insurance, or if you have inadequate insurance, call your [county or tribal office \(PDF\)](#) to ask if you're eligible for financial help to get substance use disorder treatment services, such as a comprehensive assessment. You may be [eligible for funding depending on your income](#).

If you have health insurance coverage, contact your insurance provider to learn about your benefits and to find providers who can help. Individuals with Medical Assistance can find health plan member services phone numbers on the [health plan member services phone numbers webpage](#).

Substance use disorder services include:

- Comprehensive assessments
- Nonresidential (outpatient) individual and group treatment services
- Residential treatment services
- Hospital-based inpatient treatment
- Residential withdrawal management
- Medication assisted therapies (this includes opioid treatment programs that distribute methadone, suboxone, and other related therapies, and clinic-based providers who prescribe medications treating substance use disorder)
- Treatment coordination
- Recovery peer support
-

Updated 3/9/2023

- Find more information about qualifying for [free treatment services](#).
- Get the facts about substance use disorder from MN DHS [frequently asked questions](#) webpage.
- Resource: [State of MN's Department of Human Services ADAD webpage](#)

It is best for patients to call the 800-number on the back of their insurance card to see where they might receive services.
